about us

gray data io

math problems via blockchain technology. A proper blockchain project is a decentralized network that can be used by anyone and is capable of running applications with no possibility of downtime, censorship or fraud. We only support truly decentralized blockchain projects.
our hash power

- 33,000 M/hs Ethereum
- 430 g/s Cuckatoo 31
- 147 g/s C
- 110 Gh/s RandomX
- 2000 Th/s SHA-256
